Chapter Three: Guys, Dolls and Humbugs

1. **Wild boar litter sizes:** Gethöffer, F., Sodeikat, G. & Pohlmeier, K. (2007) Reproductive parameters of wild boar (*Sus scrofa*) in three different parts of Germany. *Eur J Wildl Res*, 53: 287–297. <https://doi.org/10.1007/s10344-007-0097-z>
2. **Duration of wild boar gestation:** Henry, V. (1968). Length of Estrous Cycle and Gestation in European Wild Hogs. *The Journal of Wildlife Management*, 32(2): 406–408. <https://doi.org/10.2307/3798986>
3. **Weight range of newborn boar:** Geptner, V., et al. (1988) *Mammals of the Soviet Union: Volume 1*. Smithsonian Institution Libraries and National Science Foundation. <https://library.si.edu/digital-library/book/mammalsofsovietu11988gept>
4. **Boarlets are born with needle teeth which stick outwards in order to defend their chosen teat against their littermates:** Lyall, W. (2004) *The Whole Hog: Exploring the Extraordinary Potential of Pigs*. Profile Books: London.
5. **Duration of time spent by newborn boar in the nest:**
 - Geptner, V., et al. (1988) *Mammals of the Soviet Union: Volume 1*. Smithsonian Institution Libraries and National Science Foundation. <https://library.si.edu/digital-library/book/mammalsofsovietu11988gept>
 - Andersson, A., et al. (2011) Behaviour of European wild boar (*Sus scrofa*) in connection with farrowing in an enclosure. *Mamm Biol*, 76: 332–338. <https://doi.org/10.1016/j.mambio.2011.01.010>
6. **Nick Hunt quotation:** Hunt, N. (2021). Return of the Foreigners. *Emergence Magazine*. <https://emergencemagazine.org/essay/return-of-the-foreigners/>
7. **Captive wild boar have been recorded eating the newborns of their kin:** Andersson, A., et al. (2011) Extensive infanticide in enclosed European wild boars (*Sus scrofa*). *Applied Animal Behaviour Science*, 134 (3–4): 184–192. <https://doi.org/10.1016/j.applanim.2011.08.001>
8. **Boar suckle each other's offspring:** Arnold, L., et al. (2019). Rapid establishment of teat order and allonursing in wild boar (*Sus scrofa*). *Ethology*, 125: 940–948. <https://doi.org/10.1111/eth.12950>
9. **Wild boar weaning period:** Geptner, V., et al. (1988) *Mammals of the Soviet Union: Volume 1*. Smithsonian Institution Libraries and National Science Foundation. <https://library.si.edu/digital-library/book/mammalsofsovietu11988gept>
10. **Researchers have found plant matter in the stomachs of babies just two weeks old:** Geptner, V., et al. (1988) *Mammals of the Soviet Union: Volume 1*. Smithsonian Institution Libraries and National Science Foundation. <https://library.si.edu/digital-library/book/mammalsofsovietu11988gept>
11. **Japanese people call boarlets *uribou*:** Yamamoto, D. (2017). *Wild Boar*. Reaktion Books, London.
12. **An elderly woman hit a wild boar on the snout with her dog's lead:** Morris, S. (2007, 4 January) Woman, 80, saves pet dog from wild boar on Dartmoor. *The*

Guardian.

<https://www.theguardian.com/uk/2007/jan/04/stevenmorris.uknews2#:~:text=An%2080%2Dyear%2Dold%20woman,on%20the%20snout%20with%20it>

13. Report of dogs being injured during alterations with wild boar:

- BBC News (2010, 28 May). Warning to Forest of Dean dog owners after boar attacks. <http://news.bbc.co.uk/1/hi/england/gloucestershire/8711014.stm>
- Hearn, A. (2015, 9 April). Horrified couple watch dog savaged by WILD BOAR that jumped out on footpath. *The Mirror*.
<https://www.mirror.co.uk/news/uk-news/horrified-couple-watch-dog-savaged-5488199>
- Murray, J. (2019, 2 July). Herds of hostile hogs have humans and dogs on the run in Gloucestershire. *The Mirror*.
<https://www.express.co.uk/news/uk/1148221/hogs-hostile-gloucestershire-humans-dogs-woodland>
- Hill, J. (2020, 28 August). Forest of Dean wild boar left dog in bloody mess near Monmouth. *South Wales Argus*.
<https://www.southwalesargus.co.uk/news/18682206.forest-dean-wild-boar-left-dog-bloody-mess-near-monmouth/>

14. Videos posted online by Forest of Dean locals and visitors alike, some of them with leashed dogs in tow, show sows who barely glance towards the camera:

- BrianPwildlife (2012, 28 April). Wild boar with piglets, Forest of Dean.
https://www.youtube.com/watch?v=B_bn30vJ51U
- Agui007 (2012, 5 November). Wild Boar in the Forest of Dean.
<https://www.youtube.com/watch?v=mkYn6uN7E6U>
- Gates, N. (2018, 20 November). Searching for British Wild Boar - Forest of Dean. https://www.youtube.com/watch?v=VRSxRPL_er8&t=525s
- [Note: several other YouTube videos I found at the time of my original research in 2014 have since been deleted.]

15. Study on associations between wild boar by sex in Eastern Europe's Białowieża Forest: Podgórski, T., et al. (2014) Long-Lasting, Kin-Directed Female Interactions in a Spatially Structured Wild Boar Social Network. *PLOS ONE*, 9(6): e99875.
<https://doi.org/10.1371/journal.pone.0099875>

16. The age(s) at which young male boar leave their natal sounder, and why:

- Truve, J. & Lemel, J. (2003). Timing and distance of natal dispersal for wild boar *Sus scrofa* in Sweden. *Wildlife Biol.*, 9: 51–57.
<https://doi.org/10.2981/wlb.2003.056>
- Podgorski, T., et al. (2018). Contact rates in wild boar populations: Implications for disease transmission. *J. Wildl. Manage.*, 82(6): 1210–1218.
- Maistrelli, C., et al. (2021). Precocious puberty in male wild boars: a possible explanation for the dramatic population increase in Germany and Europe. *PeerJ*, 9: e11798. <https://doi.org/10.7717/peerj.11798>

- Nakatani, J. & Ono Y. (1994). Social Groupings of Japanese Wild Boar *Sus scrofa leucomystax* and their Changes in the Rokko Mountains. *Journal of the Mammalogical Society of Japan*, 19(1): 45–55.
https://www.researchgate.net/publication/340375183_Social_Groupings_of_Japanese_Wild_Boar_Sus_scrofa_leucomystax_and_their_Changes_in_the_Rokko_Mountains [The paper no longer appears to be readily available, although I can send a copy on request.]

17. Existence of ‘bachelor groups’:

- Titus, C., et al. (2022). Genomic tools reveal complex social organization of an invasive large mammal (*Sus scrofa*). *Biol. Invasions*, 24: 3199–3216.
<https://doi.org/10.1007/s10530-022-02840-4>
- Hirotani, A. & Nakatani, J. (1987). Grouping-patterns and inter-group relationships of Japanese wild boars (*Sus scrofa leucomystax*) in the Rokko Mountain area. *Ecological Research*, 2(1): 77-84.
<https://doi.org/10.1007/BF02348621>
- Gray, S., et al. (2019). Wild Pig Spatial Ecology and Behavior. In: KerCauteren, K., et al. (eds.). *Invasive Wild Pigs in North America, Ecology, Impacts, and Management*. CRC Press: Florida.

18. Male boar follow sounders of females around, but do not keep harems:

- Yamamoto, D. 2017. *Wild Boar*. Reaktion Books, London.
- S. Focardi, F., et al. (2015). Cooperation improves the access of wild boars (*Sus scrofa*) to food sources. *Behavioural Processes*, 121: 80–86.
<https://doi.org/10.1016/j.beproc.2015.10.019>

19. A female may mate with more than one male during her window of fertility, and her babies can have different fathers: Gayet, T., et al. (2016). On the evolutionary consequences of increasing litter size with multiple paternity in wild boar (*Sus scrofa*). *Evolution*, 70(6): 1386–1397. <https://doi.org/10.1111/evo.12949>
